Adnan Mouslli

Software Engineer | Full Stack Developer

Damascus, Syria | adnanmouslli7@gmail.com | +963 994 626 977

Professional Summary:

Full Stack Developer with three years of experience in software development, specializing in backend (Laravel, Node.js) and mobile app development (Flutter). Co-founder of AnyCode, leading development teams, training developers, and managing projects efficiently.

Skilled in project analysis, client communication, and technical leadership, ensuring high-quality, scalable solutions. Experienced in game development (Unreal Engine 5) and AI-driven applications. Passionate about task management, time optimization, and structured planning using Gantt charts and **workflow organization** to maximize efficiency.

Key Strengths: Full Stack Development | Backend Architecture | Mobile Apps | Team Leadership | Project Management | Task Scheduling | Client Relations | Training & Mentorship | Strategic Planning

Technical Skills:

- **Backend Development**: Laravel, Node.js, NestJS, Express.js, RESTful APIs, PostgreSQL, MongoDB, Spring Boot, MySQL, Prisma

- **Frontend & Mobile:** Angular, React.js, Flutter, TypeScript, JavaScript, HTML, CSS, Tailwind CSS, Bootstrap

- **Software Architecture:** Clean/Onion Architecture, CQRS, Microservices, Event-Driven Systems

- **Machine Learning & Deep Learning:** TensorFlow, Keras, Scikit-learn

- **Tools & DevOps:** Git, Docker, Firebase, WebSocket, Background Jobs, Caching, CI/CD

- **Other:** OOP, Agile Methodologies, Unit & Integration Testing, Code Reviews

Work Experience:

Full Stack Developer

XO Garment Factory | Remote | 02/2024 - Present

- Developing and maintaining the Tracking System using Node.js, React, TypeScript, and PostgreSQL.

- Enhancing system performance and implementing scalable backend solutions.

Technical Support & Trainer

Beshara Factory | Present

- Providing technical support for the Tracking System used in the factory.

- Training and mentoring a development team on best practices in software development.

Trainer & Supervisor

AnyCode | 11/2023 - Present

- Conducted 5+ training courses in Backend (Laravel, Node.js) and Frontend (React, Angular).

- Supervising and guiding junior developers on multiple projects.

Android & AI Projects

- Developed 10+ mobile applications using Flutter.

- Worked on 3+ AI projects, focusing on Neural Networks, Machine Learning, and Data Mining.

Education:

Bachelor's in Computer Engineering
Aleppo University, Syria | **2019 - 2024**

- **Ranked 2nd in Class**

Top Projects:

- **3D Virtual Mall with Intelligent Assistant (Graduation Project - 99%)**
  Unreal Engine 5, 3D Max, PHP, MySQL, JavaScript, Python, AI, Data Mining

- **Tracking System for XO Garment Factory**
  Node.js, Express, React, TypeScript, PostgreSQL, Prisma

- **HR Management System (In Progress)**
  Angular, Flask, SQL Server

- **Medical Clinic Automation System**
  Laravel, JavaScript, HTML, CSS, MySQL

- **Farm Management System**
  Flutter, Dart, PHP, MySQL

- **Factory Accounting Management System**
  NestJS, Prisma, PostgreSQL, Railway Hosting

- **AnyCode Company Accounting System**
  NestJS, Prisma, PostgreSQL

- **AnyCode Portfolio Website Backend**
  NestJS, Prisma, PostgreSQL

- **Additional Projects:**
  - 10+ Mobile Applications using Flutter.
  - 3+ AI Projects, including Neural Networks, Machine Learning, and Data Mining.

Certifications & Achievements:

- **Analysis and Design Competition Certificate** – Cordoba Private University, 2023

Languages:

- **Arabic**: Native

- **English**: Proficient
